Tuesday, July 1, 2008

Q1. One of the criteria of the RFP is the 5 recent (within the last 3 years) references for the PM for similar work in SB or Riverside counties. Is this solely for the Project Manager of the Prime or will you also be considering the experience of the entire team? Our PM unfortunately does not have 5 recent references but our Geotech firm does and our proposed CM firm has considerable airport work in Riverside.

A1. *This applies to the entire team, not just the project manager.*
