REQUEST FOR INFORMATION (RFI) No. 1

**THE PERFORMANCE OF PRELIMINARY ENGINEERING AND PREPARATION OF PLANS &
SPECIFICATIONS AND CONSTRUCTION MANAGEMENT SERVICES FOR THE CONSTRUCTION OF
THE BUILDING 747 PARKING LOT**

July 29, 2009

Q1. We are assuming that we should bring in a geotechnical engineer so that we can get recommendations for pavement sections. There is mention in the RFQ package of the consultant being in charge of environmental mitigation. Do you know if there are existing environmental hazards on site?

A1. *No*

Q2. Although we could do signage and striping for the parking lot in-house, would a traffic engineer be needed for the pavement sections.

A2. *No*

Q3. I wanted to confirm that the budget is \$900,000 for design and construction?

A3. *Yes*
