**REQUEST FOR INFORMATION (RFI) No. 2**

**THE PERFORMANCE OF PRELIMINARY ENGINEERING AND PREPARATION OF PLANS &  
SPECIFICATIONS AND CONSTRUCTION MANAGEMENT SERVICES FOR THE CONSTRUCTION OF  
THE BUILDING 747 PARKING LOT**

**August 10, 2009**

**Q1. I need to know where to find the as-builts for the existing concrete slabs that are to remain (to see the reinforcing), that will become a part of the parking lot pavement. I also need as-builts for the parking area to see utilities that will potentially impact a new storm drainage system and new electrical conduits.**

*A1. The selected firm will receive these as-builts.*

**Q2. I understand the responses need to be 3-hole punched. Do you want them put into a binder, or clipped together with binder clips, or the clear front paper report covers that are held together by 3-hole prong fasteners?**

*A2. Binders or covers are acceptable, as long as they are bound. No binder clips.*
